

Hello! I will art everywhere. I know art is not a verb, lets move forward. I'm a **graphic artist**; meaning, I **design print** and **web** ready artwork. Do you have a favorite magazine? I could design that magazine from scratch and hand it back to you. Now travel to here: www.skillfulantics.com. See that website you are on; that's a **flash website**. I could, and did, design, write the action script (that's what makes it work), and place it into the internet. That's what I mean by **print** and **web** ready artwork.

Hire Me! (Freelance Style)
